

# Uncover actionable human risk insights in one hub

Get deeper insights into your organisation's human cyber risk, review areas for improvement and gain more control over internal reporting.

## Your one-stop hub for monitoring human risk

The Report Hub gives admins an easier way of understanding ongoing human cyber risk, monitoring changes over time and keeping on top of user management through advanced analytics.

- ✓ Find all of your human risk performance metrics in one easy-to-digest report
- ✓ View quick insights into how and where human risk is changing in your business
- ✓ Review monthly and quarterly breakdowns, or set custom date ranges
- ✓ Keep on top of active and inactive users, groups and managers
- ✓ Schedule recurring reports, add recipients and set custom frequencies
- ✓ Download and share your reports in presentable PDFs or Excel spreadsheets
